

User manual for MANAK Online for BIS

Introduction: Bureau of Indian Standards (BIS) is the National Standards body of India, functioning under the aegis of Ministry of Consumer Affairs and Public Distribution, Government of India. BIS has published more than 20000 Indian Standards (IS) and Priced Publications (PP) to ensure the quality of products, more than 400 new standards and 400 amendments are published.

The e-Governance solution brings new revolution in the workflow of BIS. The web-based system allows the applicants to apply online for Grant of License. This is a role-based system having the functionality for online scrutiny of application. This will reduce the paper work and manual effort. The system is having the feature for the automatic selection of inspection officer and date to reduce biasness. It provides extensive monitoring, reporting and audit trails facilitated with e-Communication using SMS, emails and efficient query management for applicants.

The applicants applying for multiple licenses will get the concession automatically based on the terms and condition of respective scheme. This portal contains all the schemes running under BIS. Other than Grant of License, applicants and BIS users will have the online facility for license renewal, cancellation, suspension and surveillance process. Individual user can apply as an auditor also in this portal for respective schemes based on the guidelines and qualification. This portal also generates various MIS reports for the monitoring done by higher management.

The system supports following processes:

- Online Application Submission for Grant of License for Product Certification, Hallmarking and Management System Certification (MSCD) and Foreign Manufacture Scheme
- Automatic BIS officer selection based on the workload in respective branch and discipline for submitted applications
- Automatic scrutiny of application based on checklist
- Online Payment option at various stages
- Return file option based on product manufacturing
- Surveillance process
- Inspection plan with tour log of BIS officers
- Dynamic mapping of schemes based of BIS officer's rights
- Consumer Affairs Department (CAD) module for handling customer grievances
- LAB module for testing of product samples
- Online provision for renewal of license
- Online provision for declaring of Stop Marking and Resumption of Marking during license period
- Inclusion, cancellation, suspension of license

Benefits of the System:

This system reduces the paper work and manual effort. The system has the feature for the automatic selection of inspection officer and date of inspection to reduce biasness. It provides extensive monitoring, reporting and audit trails facilitated with e-Communication using SMS, emails and efficient query management for applicants. The applicants applying for licenses gets the concession automatically based on the terms and condition of respective scheme.

Already Registered User:-

The image shows a login form titled "Login" with a blue header. Below the title is a grey user icon. The form contains two input fields: the first contains the username "tanmay" with a green checkmark to its right, and the second contains a masked password "*****". Below these is a captcha image showing the characters "t a u y" in a blue, stylized font, with a refresh icon to its right. A third input field contains the text "tauy". Below this field is a blue "Sign in" button, which is highlighted with a black rectangular box. At the bottom of the form, there is a link that says "New User Register Now".

Figure: User Already Registered

- Step 1: Enter the username and password
- Step 2: Enter the captcha.
- Step 3: Click on sign in. After that product certification tile will be displayed.

New User Registration Process:-

Note: - If a User is new then follow following steps:-

- Click on 'Register Now'

Login

Enter Email or Username

Forgot Password:-

All the Users of Bureau of Indian Standard (BIS) have been allotted user name and Password. User name is a name, which will enable the user to log on to the BIS. The password is like a digital signature. It is very imperative that one should keep one's password a secret. Disclosing your password is like telling the secret code of a number lock to someone. Whenever a user saves a crucial record into the database, his user name is also attached to the record. At any given point later the System administrator can find out who saved the record into the database. So if someone knows your Password he will log on to the system using it and add anything into the database and you could be held responsible for it later. Never disclose your Password to anyone and do not keep your name, family member's names or anything that can be guessed by people around you as Password.

Note: - If forgot your password then follow following steps:-

- Click on 'Forgot Password'

The image shows a login form with a blue header labeled 'Login'. Below the header is a user icon. The form contains a username field with 'tanmay' and a green checkmark, a password field, a captcha field with the text 't a u y' and a refresh icon, and a text input field with the placeholder 'Enter the above text'. Below these fields are buttons for 'Sign in', 'New User Register Now', and 'Forgot Password' (which is highlighted with a black box).
